THSRC Party Reservation Form

Each child in the party or group will need to be skill checked by our lifeguarding staff prior to entering the pool. This skill check will identify children that are competent in water over their heads. Children who do not pass this deep water competency test and are greater than 42" in height will be required to remain in the roped off shallow section of the main pool or children's pool. All other children who do not pass the deep water competency test must be accompanied by a responsible adult during their party's pool time. We require 1 adult to each child 4 and under, 1 adult to every six children 5 and up. The swim test is given only once to each child at each party. There are no retakes.

To minimize the time this swim test takes, please provide the names, age and height of all children attending your party in the space below. This list will be given to the lifeguard staff that will test your children before they are allowed to enter the water.
